### **The Huachuma Project: Pricing & Value Transparency**

#### **Why Our Retreat Pricing Reflects Real Value**

At The Huachuma Project, we are passionate about offering a transformative experience rooted in authenticity, healing, and expertise. We understand that attending a retreat is a significant investment, and we want you to know where every euro goes. This transparency is important to us because, like you, we value integrity and openness.

#### **Building The Huachuma Project: Our Financial Commitment**

Creating a retreat center in the Algarve has been a journey built on dedication, loans, and substantial personal investment. We've invested both time and personal funds to make this sanctuary possible, and we continue to carry high debts and investor commitments to ensure that The Huachuma Project remains sustainable, accessible, and of the highest quality.

To cover operational needs, our **monthly running costs are up to €4,000**. This includes everything from property upkeep, utilities, and sustainable off-grid solutions to the salaries of the skilled crew members who support your healing experience. Every penny of your investment goes directly toward maintaining this sacred space and upholding the high standards of care we promise to deliver.

#### **The True Value of a Retreat at The Huachuma Project**

Consider this: the cost of a flight alone to South America, where many embark on similar healing journeys, is often upwards of **€800**. And that doesn't include lodging, meals, or the

cost of a reputable retreat. Here in Portugal, you gain access to a full, deeply immersive experience—all for less than the price of a plane ticket.

For just **€750 per person (or €675 upfront)**, here's what your investment brings you:

- **Complete Retreat Package:** From airport transfers to lifetime integration support, every detail is accounted for so that you can focus solely on your healing.
- **Pre-Retreat Support:** Unlimited access to retreat preparation resources, a personalized clarity call, and consultation to prepare you thoroughly.
- **Years of Expertise:** Benefit from the thousands of hours spent in facilitation, training, and personal experience from me, your guide, and the trained crew who join me.
- **Comprehensive, All-Inclusive Amenities:** Accommodation, nourishing meals, and the serenity of a remote, off-grid 100-acre valley in the Algarve.
- **Ceremonies and Lifelong Community:** Guided ceremonies in a safe, supportive environment and lifetime access to our online Facebook community, creating connection and continuity far beyond the retreat.
- **Lifetime Integration Warranty:** After your retreat, we provide continuous access to integration support and resources—because we believe in the long-term impact of this work.

## Pricing Update and Payment Plans for Your Convenience

As the retreat continues to grow, we plan to adjust our pricing to **€800 per person (€725 upfront)** within the next year. This reflects our commitment to maintaining the highest quality for all participants while covering the rising costs of running such an immersive experience.

We also understand the importance of budgeting, so we offer **prepayment plans**. By choosing a prepayment plan, you can split your investment into manageable installments and have your retreat fully paid for before your arrival, putting the power of preparation in your hands.

## Choose Transformation for Less Than the Price of a Plane Ticket

Every investment you make in your healing journey is an investment in yourself. For less than a flight to South America, you can experience the wisdom of San Pedro and the support of a dedicated team right here in Portugal. You'll be stepping into a well-crafted, carefully held space built on years of commitment, training, and community.

## Contact Us

The choice is yours—take control of your healing journey. With a deposit of just **€250 or €675 upfront**, you're committing to a transformative experience in a place designed specifically for meaningful, life-changing work.
